## Objective

---

Motivated engineering graduate looking for a chance in an IT company to use my problem-solving, analytical, and technical skills. I want to contribute to software projects, learn new technologies, and grow professionally in a team-oriented and fast-paced setting.

## Education

---

- B.Tech (EEE), Srinivasa Ramanujan Institute of Technology, Anantapur (2022-2026): CGPA:7.2
- Board of Intermediate Education, Sri Chaithanya Junior College A.P (2020-2022): 68%
- SSC, Board of Secondary Education, Sri Chaithanya Techno School, A.P (2019-2020): 100%

## Skills

---

- **Languages:** Python (Intermediate), My SQL (Basics), HTML & CSS (Basics)
- **Technologies:** Web Development (Basics), GitHub
- **Frameworks:** Visual Studio Code
- **Editing:** Cap Cut Pro, Adobe Creative Cloud, Photoshop, Lightroom

## Internships

---

### 220/132 kV Substation Internship:

- Learned about transformers, circuit breakers, busbars, and protection systems.

### Salesforce Developer Agent blazer Internship:

- Developed AI-powered Salesforce agents to automate business workflows and enhance customer service efficiency.

### Oracle Cloud Infrastructure 2025 Certified Generative AI Professional Internship:

- Skilled in using OCI tools to build and manage AI solutions.

## Projects

---

- Water Level Detection in Tank – Designed a system to monitor and indicate water levels in a storage tank for efficient water management.

## Certifications

---

- 220/132 kV Substation Certification
- Salesforce Developer Agent blazer
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

## Achievements & Activities

---

- Won team recognition for project Surgethon conducted at college.
